

CONGRESSMEN ARE BUSY ON NEXT HOUSE CAMPAIGN

Democrats Send Flying Squadron of Workers to Influence Voters in Maine.

LEADERS WILL GO ON STUMP

Republican Committee Not Yet Entered Upon Extensive Fight, and There is Complaint of Empty War Bags.

Washington, July 18.—The Evening Star of today prints the following story:

"Congressional politics is occupying the attention of the managers and the campaign for re-election of the next House is already under way.

"The Democrats have sent a flying squadron of workers to Maine, where the congressional election is held in September. The Republicans are opening headquarters in Chicago, to take care of the Middle West, and there will be other offices in New York to handle the East.

"Deep anxiety is felt by the Democrats over the coming Maine election, from the fact that the returns in that State are usually regarded as indicative of the general political situation in the country at large. It is essential, in the opinion of the Democratic managers, that Maine shall not wobble on account of the moral effect which might be thereby produced in other States.

"The Democrats do not expect to make gains in Maine. They have only one man in the House from that State, but they are very anxious not to lose their one ewe lamb. So, in point of fact, they are on the defensive at the very outset of the campaign.

Leaders to Go on the Stump.

"All the oratorical big guns of the majority party in the House will be put on the stump in Maine, and a vigorous literary campaign will be waged as well. The leaders feel that if they not only save their seat, but increase his plurality, it will be a wonderful incentive to the faithful all over the country to gird themselves for the big fight in November.

"The Democratic National Committee, with headquarters in this city, under the management of Thomas J. Pease, has been at work for several weeks on the general campaign. The committee sends out a weekly broadside for the use of country editors, which has been skillfully prepared and carried out by the committee.

"The last few issues have been devoted to refuting the Republican charges of calumny and business depression chargeable by the enemy to the Democratic legislation and administration. All the favorable business news that can be collected is spread out triumphantly in the weekly press, to be echoed by the Democratic press.

Change From the Old Days.

"The Republican congressional committee has headquarters in the Riggs Building, but thus far has not entered into an extensive publicity campaign. The Republicans expect to make a war bag. This is in marked contrast to the good old days when the Republicans used to have slathers of money and the Democrats were always poor as a church mouse.

"One effusion of the publicity department of the Republican committee a few days ago caused a near riot among the Republican old guard in the House. The committee sent out, under official authority of the Republican National Congressional Committee, a circular, a criticism of a Democratic congressional measure, now pending in the House. The circular was signed by the name of Lenoir, but not in the name of the last days of Alrich and Cannon had such vicious legislation been proposed.

"As Uncle Sam is running for Congress in Illinois under the auspices of the Republican Congressional Committee, and after the regular caucus had been held upon it, the air in the House people thought the place was being fumigated.

A pure and lovely child,

Down came the Heavenly Gardener,

QUICK RESULTS ASTONISH RICHMOND

There is astonishment in Richmond at the QUICK results received from simple buckthorn bark, glycerine, etc., as mixed in Adler-I-ka, the remedy which became famous by curing appendicitis. This simple mixture drains such great amounts of foul matter from the body that a SINGLE DOSE relieves constipation, sour stomach and gas on the stomach almost IMMEDIATELY. The speedy action of Adler-I-ka is surprising. The T. A. Miller Company, druggists, 519 East Broad Street.—Advertisement.
